

## Literacy

### Goal:

Improve student achievement in Literacy

### Strategies:

By employing high impact instructional practices coupled with equitable assessment, as educators, we will:

- foster oral language development by encouraging students to engage in meaningful discussions, present ideas clearly and actively listen to others in diverse contexts;
- provide explicit instruction through authentic writing opportunities (creative, varied, personal) across all subject areas;
- engage in a balanced approach to reading instruction that incorporates phonics, vocabulary development and comprehension strategies to help students make meaning from texts, across various genres.

## Mathematics

### Goal:

Improve student achievement in Mathematics

### Strategies:

By employing high impact instructional practices coupled with equitable assessment, as educators, we will:

- employ diverse pedagogical approaches, engage students in meaningful discussion, and offer culturally relevant mathematical experiences;
- foster exploration, movement, risk-taking, and critical thinking across all strands;
- ensure students actively work with various materials, tools, and contexts to construct meaning about new mathematical ideas and build comprehensive mathematical concepts through application and analysis.

## Well-being

### Goal:

Foster an inclusive learning environment where every student feels valued, supported and has the opportunity to reach their full potential

### Strategies:

As educators, we will:

- nurture an inclusive environment where students thrive physically, socially and emotionally with support from the Health Promoting Schools Framework;
- implement the Safe School Strategy to foster student well-being and a culture of inclusion, equity and safety;
- strengthen relationships by actively engaging in culturally responsive practices with students, families and communities by practicing cultural humility, honouring diverse perspectives, and centering student voice in our daily interactions.

### Our Commitment:

All SRCE staff will support student well-being, engagement, learning, and achievement to enable the success of all students.
